CAREER OBJECTIVE

Passionately walked my way through an intensive 1000+ hour bootcamp to code, while improving my soft skills and other expertise. In practicing my skill as a front-end developer, I've been able to build scalable and responsive web applications and sites. A developer driven to apply my management and technical skills to achieve corporate goals, develop improved processes for managing clients requests and accomplish projects more efficiently. An influential team worker who enjoys working closely with team members to ease hassles and ensure tasks are evenly distributed and executed efficiently.

Strong problem-solver and analytical thinker with proven communication skills that focuses on improving workflow and efficiency in businesses and office settings. Over 3 years experience in the educational sector with exceptional leadership skill and an internet savvy making good use of search engines for additional knowledge and purposeful research. Very enthusiastic and optimistic; seeing every challenge as an opportunity to keep learning, growing and transforming to the zenith of my potentials. A realist ready to give out value to humanity.
